Speaking Task: Create an Extreme Sport

XTREME SPORTS

Xtreme (a quick way of writing Extreme) sports are untraditional sports characterized by high speed or high risk. They include aggressive inline skating, snowboarding, mountain-bike downhill racing, ice climbing, glacier skiing, canyoning, free climbing, and bungee jumping.

Imagine that an American company has asked you to organise a new Extreme Sport for tourists and business groups in your country. They would like you to make a formal proposal. Think about the following:

Where will it take place?
What do you have to do?
What equipment do you need?
How much will it cost?
What safety measures will there be?

Prepare your proposal and try to include some of the vocabulary you have seen in the unit. When you are ready, present it to the others in the class.
