Overview: Suggestions for using the Macmillan Dictionary BuzzWord articles (*vuvuzela*, *umami*, *tweetup*) and associated worksheets.

Total time for worksheet activities: 30 minutes

Suggested level: Intermediate and above

1. If you intend to use the worksheets in class, go to the *BuzzWord* articles at the web addresses given before exercises 1 and 3, and print off a copy of the articles. Make a copy of the worksheet and the *BuzzWord* articles for each student.
2. If the members of your class all have computer access, ask them to open the worksheet before they go to the *BuzzWord* article links. Make sure they do not scroll down to the Key until they have completed each exercise. You might find it helpful not to print a copy of the Key for each student but to check the answers as a class.
3. Ask students to read the *BuzzWord* articles on *vuvuzela* and *umami*, paying particular attention to the background sections.
4. Ask students to work in pairs to find the answers to the **Find the information** questions. Check the answers as a class.
5. Before students complete exercise 2, point out that *vuvuzela* and *umami* are examples of *loan words*. Ask them if they can think of any other examples of loan words in English, and the languages they come from (e.g. *duvet*, *bureau* = French, *graffiti* = Italian, *kindergarten*, *zeitgeist* = German). Point out that this phenomenon is also sometimes referred to as *borrowing*, and is one mechanism for new words entering a language. Can they think of examples of English words that have been adopted in their native languages?
6. If students are having problems completing exercise 2a, allow them to use the **Macmillan Dictionary** to work out the answers. If there is no computer access in class, make and distribute copies of the *BuzzWord* articles needed to complete section 2b.
7. Ask students to read the *BuzzWord* article on *tweetup*, and complete exercises 3 and 4 independently.
8. Before students complete exercise 5, explore the fact that, within phrasal verbs, the preposition (sometimes referred to as the *particle*) often has a particular meaning that you can see in more than one example. The preposition *up*, for instance, often means 'moving to a higher position', so we see examples like *lift up* and *pick up*. If we understand what these prepositions mean, it can help us to work out the meaning of phrasal verbs that we haven't come across before. Good dictionaries of phrasal verbs often have special entries for prepositions like *up* which explain the most common meanings they have (if you have access to a volume such as **Macmillan Phrasal Verbs Plus**, you can show them this). Another common meaning for *up* is in the sense of 'improving and increasing'. Point out the example of this in the exercise and continue to complete the table as a class activity.

1 Find the information

Read the background sections of the *BuzzWord* articles on *umami* and *vuvuzela* and answer these questions.

1. In which two countries were these words first used?
2. *Umami* is often described as the 'fifth taste'. What are the names of the other four tastes?
3. Indicate if this statement is true or false: *Umami was officially recognized as a fifth taste by Japanese chemist Kikunae Ikeda in 1912.*
4. Name three foods which often have the delicious *umami* taste.
5. Which African language might the word *vuvuzela* originate from?
6. What was the purpose of the 'Kudu horn'?
7. What two materials have been used to make *vuvuzelas*?

2 What do they mean and where do they come from?

a. *Vuvuzela* and *umami* are loan words, words from other languages that are used by English speakers. Below are four more examples of loan words that appear in the Macmillan Dictionary. Can you match them with the correct definitions? There is one definition you do not need.

sudoku

wiki

tsunami

barista

1. photographers who follow famous people to take pictures of them for newspapers and magazines

2. a person who works in a coffee bar

3. a very large wave caused by something such as an earthquake

4. a website which allows readers to add and edit content

5. a game in which you fill a special grid with the numbers 1 to 9 so that each row, column and block of nine squares contains each number only once

Do you know the loan word which matches the extra definition? What language does it come from?
