Class survey Worksheets **39a** and **39b**

NOTE: Use Worksheets 39a and 39b for this activity.

ACTIVITY

Pairwork and groupwork: speaking, writing

AIM

To do a class survey by asking and answering questions and to report the results of the survey.

GRAMMAR AND FUNCTIONS

Reported speech: statements

... *said that* + clause

VOCABULARY

General

PREPARATION

Make one copy of Worksheets 39a and 39b for every 16 students in the class and cut the cards out as indicated.

TIME

30 to 40 minutes

PROCEDURE

- 1 Explain to the students that they are going to do a class survey and explain what a survey is, if necessary.
- 2 If there are more than 16 students in the class, divide them into groups. Ask the students to work with a partner from the same group and give one card to each pair of students.
- 3 Explain that each pair of students is responsible for asking everybody in the class or group all the questions on their card. They should put a tick each time somebody answers *yes* and a cross each time somebody answers *no* to one of the questions.
- 4 Now ask the students to go round the class or group in pairs asking and answering questions and putting ticks or crosses on their card.
- 5 When they have spoken to everybody in the class or group, ask them to write the information they have gathered on a poster under the following headings:
Nobody said that ...
A few people said that ...
A lot of people said that ...
Everybody said that ...

For example:

SURVEY RESULTS: HOPES AND DREAMS

Nobody said that ...	A few people said that ...
... they wanted to play a sport for their own country.	... they wanted to be famous. ... they wanted to run their own business.
A lot of people said that ...	Everybody said that ...
... they wanted to get married and have children. ... they wanted to travel and meet people.	... they wanted to be a millionaire.

- 6 Encourage the students to use the target language and be on hand to answer questions and offer help at this stage.
- 7 Ask the pairs of students to take it in turns to read out their survey results to the rest of the group or class.
