Worksheets

3a

and

3b

NOTE: Use Worksheets 3a and 3b for this activity.

ACTIVITY

Pairwork: speaking

AIM

To ask and answer questions about friends.

GRAMMAR AND FUNCTIONS

Giving personal information

Questions without a question word

Negatives

Short answers

VOCABULARY

Personal information

PREPARATION

Make one copy of Worksheets 3a and 3b for each pair of students.

TIME

20 minutes

PROCEDURE

1. Draw three heads on the board, numbered 1 to 3, and write the name of a real friend of yours next to each one. In random order, write the following information about each friend around the heads without indicating which piece of information goes with which friend: job, age, last name, where they are from, and whether they are married or single.
For example:

First name: 1) Pete 2) Corrine 3) Simon

Job	_____	_____	_____
Age	_____	_____	_____
Surname	_____	_____	_____
Where from?	_____	_____	_____
Married?	_____	_____	_____

2. Tell the students that these are real friends of yours and that they are going to fill in the details under each head by asking you questions. They must only ask questions requiring the answer *yes* or *no*. They must complete the information about person number 1 before going on to person number 2.

For example: 1. *Peter*

Student: *Is Peter a doctor?*

Teacher: *Yes, he is.* (Write *doctor* in the space provided under Peter's head.)

Student: *Is he 45?*

Teacher: *No, he isn't.*

Student: *Is he 36?*

Teacher: *Yes, he is.* (Write *36* in the space provided under Peter's head.)

3. Continue answering the students' questions until you have filled in all the details about person number 1.
4. Repeat the procedure to complete information about person number 2. The students will be able to give you the information about person number 3 without asking questions. The students can then ask you other questions about your friends if they like.
5. Now ask the students to work in pairs of Student A and Student B.
6. Give a copy of Worksheet 3a to each Student A and a copy of Worksheet 3b to each Student B.
7. Tell them to imagine that these are photos of three of their friends or relatives and ask them to put their first names in the spaces provided on their worksheet.
8. Now ask them to write the following information about each person in random order in the boxes on the worksheet, without indicating which piece of information goes with which person: job, age, last name, where they are from, and whether they are married or single. They must not write the information in the spaces provided under each person yet.
9. When they have done that, ask the students to exchange worksheets and take turns asking and answering questions about their partner's friends. They should write in the details about their partner's friends in the spaces provided on their partner's worksheet.

OPTION

Do the same activity using real photos of the students' friends or family.
