Ask students if they have ever heard of phrasal verbs and, if so, to give you a couple of examples. Ask students what they know about how phrasal verbs are made and explain that phrasal verbs combine a verb with a particle (preposition or adverb). Explain that as well as understanding at how to form phrasal verbs, they will need to understand how different particles can completely change the meaning of the verb they are combined with.

Discuss the different meanings of the two examples with the verb *take*.

Activity 1

Ask your students to look at the verbs in the sentences and to select the particle that best fits the meaning. Encourage them to check their answers with their partner on the Macmillan online dictionary. Clarify any doubts the students may have about the form or the meaning of the phrasal verbs.
