

DESIGN A SCHOOL T-SHIRT

Did you know that since 2008, we celebrate International Day of T-shirt on June 21? It might sound silly, but t-shirts are an important item of clothing. They are very popular and cheap, so everyone has one. Also, many people wear t-shirts with prints that are important to them. For example, they have the logo of their favourite band.

Imagine that your school is going to an international competition and needs a new t-shirt design for the students that will represent it. Work with your team to design a t-shirt. You can include any print, colour and fabric you'd like.

Remember you'll have to present your design to the class and explain each element. When you are done with the design, prepare and practise your presentation.

T-Shirt element	Description	Reason
<i>Sleeves</i>	<i>We want them red and made from mesh fabric</i>	<i>Mesh is breathable, so this can be used for sports</i>
