

HOW TO USE INTERACTIVE FLASHCARDS?

STEP BY STEP

Open the file

Each word is an individual flashcard. Each one can be opened as an independent file. Several files can be opened at the same time. This might take time, it depends on your equipment.

Click on the image

The word will appear below. Click again and it will disappear.

Activate sound

You can activate sound by clicking the Play button.

Alternate interactivity

Word and sound can be activated and altered as needed. Use these functions to vary practice.

Close and reuse

Close the file without saving changes. You can use these flashcards again.

Hidden surprises

Some flashcards have a hidden surprise... they move! This can help you motivate your students. Ask them to pay attention and find the hidden surprises.
